MORE VOCABULARY

If a couple separates, the mum or the dad can be happy again with someone else.

If the father finds a new woman to be happy with, she would be the stepmother of her new husband's children.

If the mother finds a new man to be happy with, he would be the stepfather of his new wife's children.

If the new partners have children, they would be called stepbrother(s) or stepsister(s) to the children they already have.

If you get married, your partner's parents are your parents in law. Mother in law or father in law.

Your husband or wife's brothers or sisters are your brother(s) in law and sister(s) in law.
