

ENGLISH

# Unit 11: Academic Subjects

*Pre-Intermediate English with*

**THE INSPIRE ACADEMY**

# Introduction

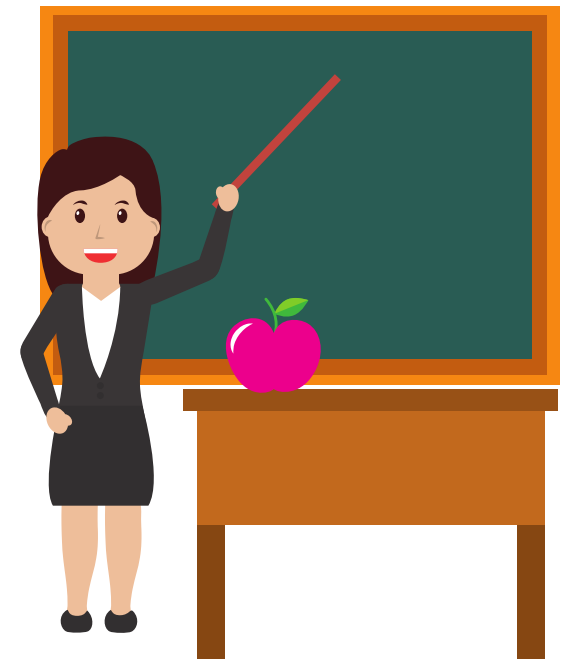

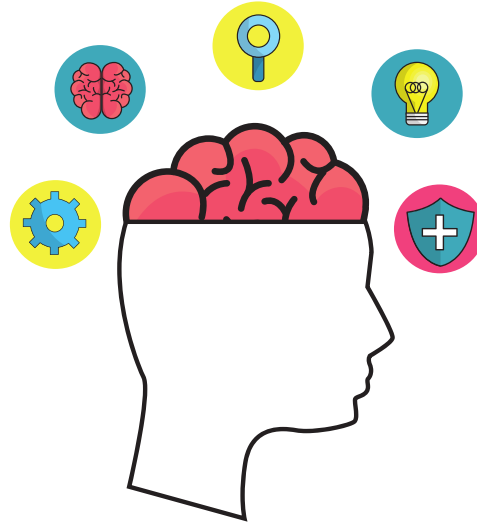

- The reason for many people wanting to learn English is so that they can advance in their academic life.
- So it is necessary to know the necessary vocabulary for an academic setting.
- The focus of this unit will primarily be on the types of classes within an academic setting.
- This means that you will learn the names of the basic and most essential subjects within a school, everything from Science to Art.
- We will first learn the types of classes and then we will learn the names of some classes under that type, with the aid of pictures.
- Later, there will be multiple exercises to help you to really remember what you have learned and put it into practice.
- Let's get started!

\*You can listen to how each class is said in the audio for this unit\*

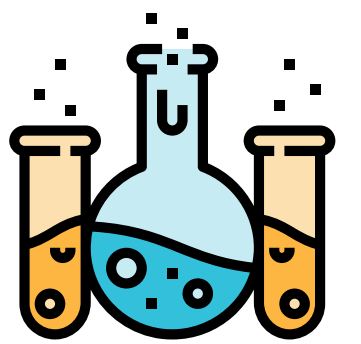

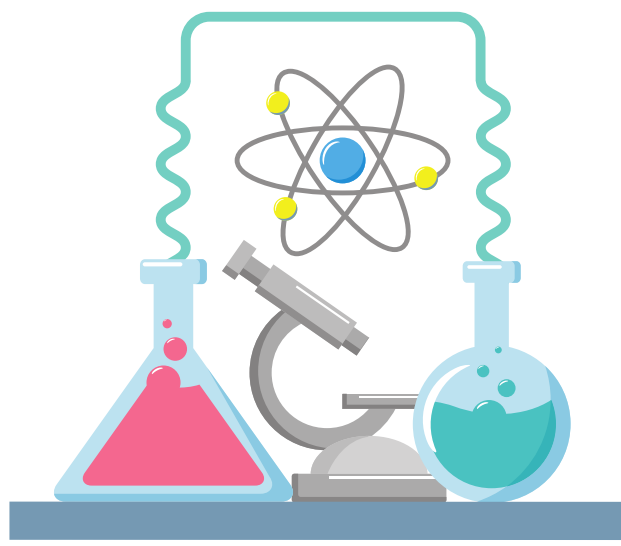

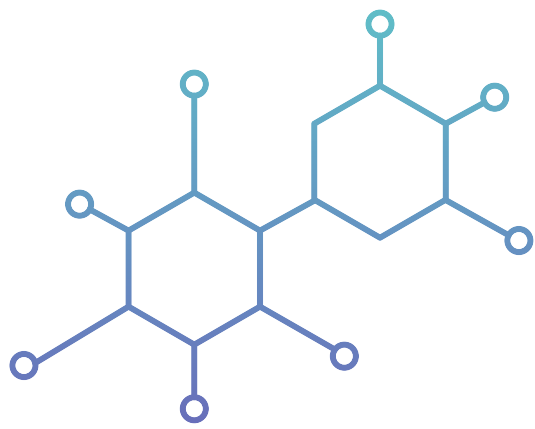

# The Four Academic Disciplines

## Business

## Social Sciences

## Natural and Applied Sciences

## Humanities

# Business

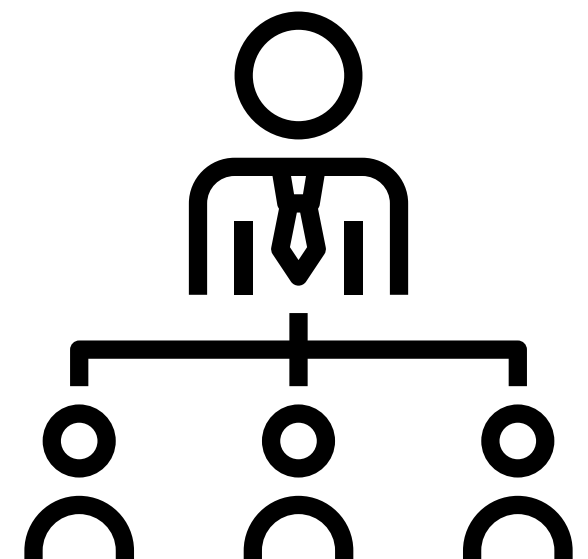

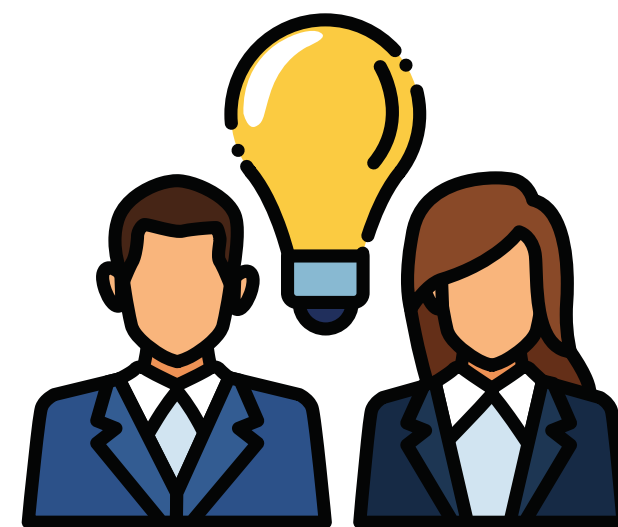

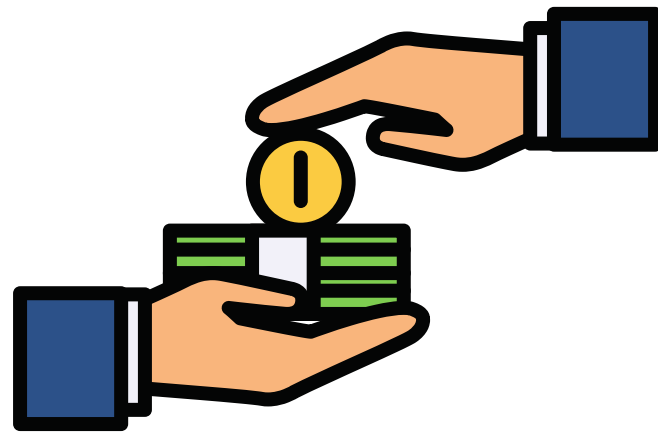

Accounting

Economics

Finance

Management

# Natural and Applied Sciences

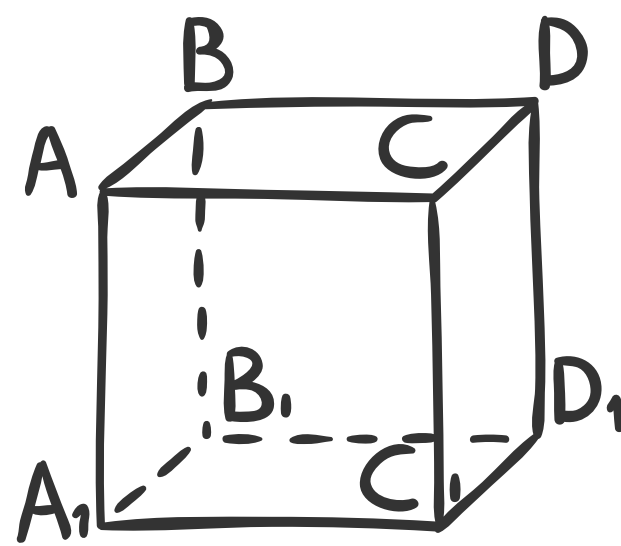

Biology

Chemistry

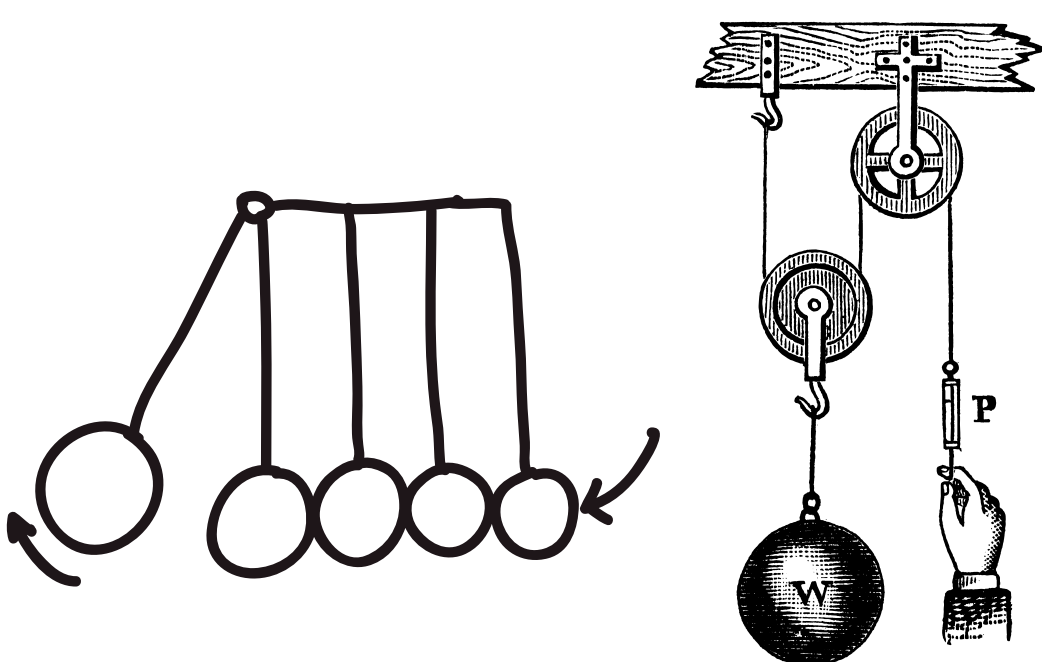

Computer Science

Engineering

Geology

Mathematics

Physics

Medecine

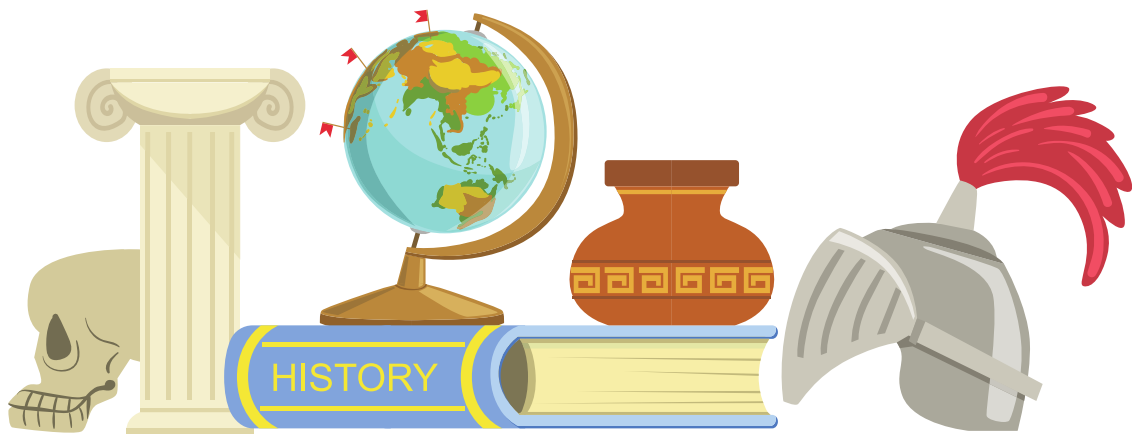

# Humanities

Art

Languages

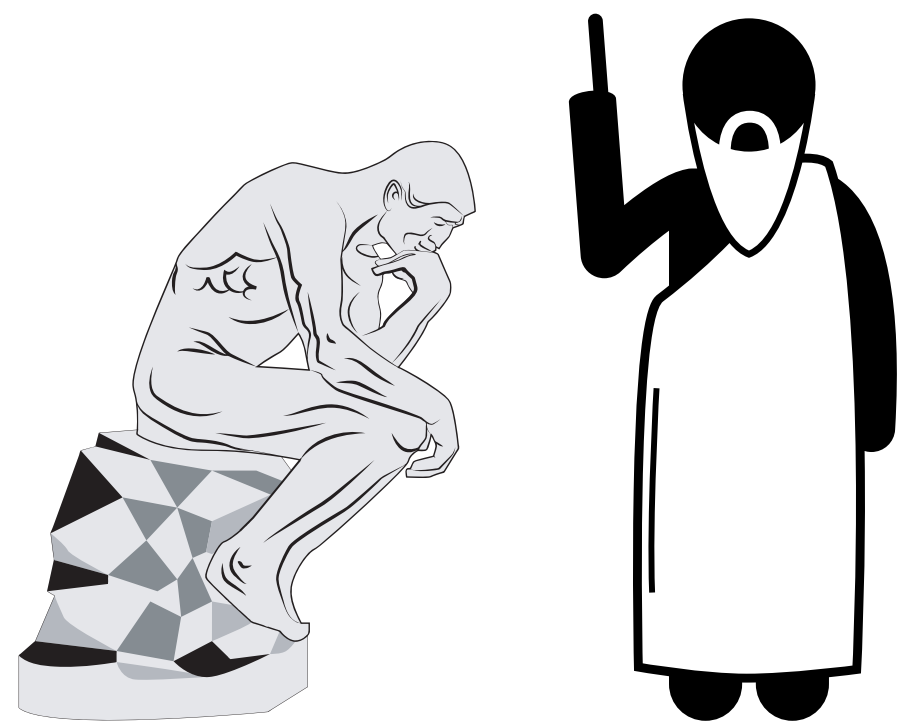

History

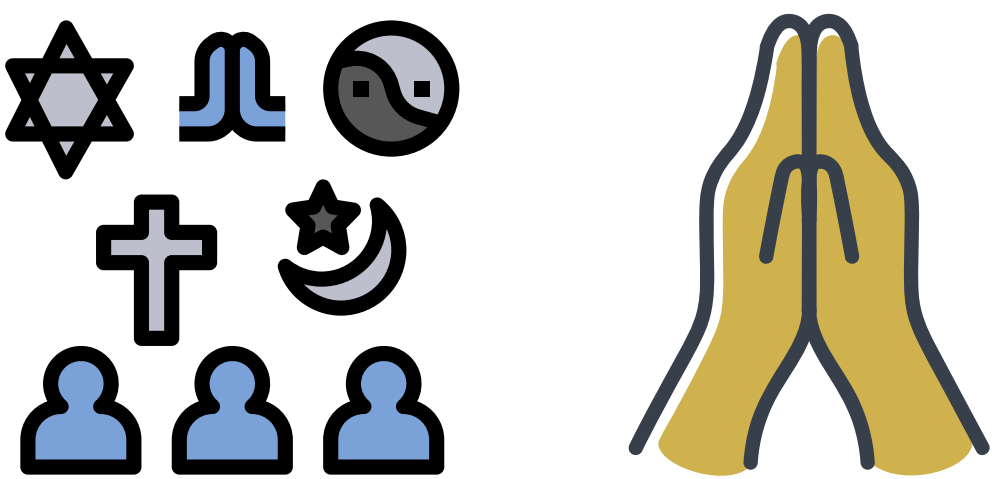

Literature

Music

Philosophy

Religion

Theatre

# EXERCISE

Match the names with the correct academic subject

Law

Finance

Computer Science

Music

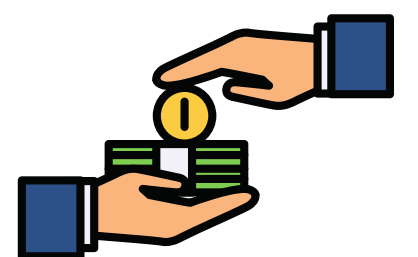

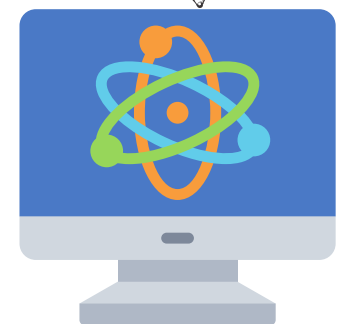

Philosophy

Chemistry

Medecine

Management

Psychology

# FRIEND EXERCISE

For this friend exercise you and your friend must each choose 5 different academic subjects.

Then you must write a sentence for each subject about why you do or do not enjoy that subject.

If you agree with your friend then you should say why you like the subject as well.

If you do not agree then you should try to explain why you do not like it.

Have fun!
